PROGRAM OVERVIEW

Each bed is a flat \$750 per month and all utilities are included in the rental price, plus a \$750 refundable security deposit, less any structural or repair damages following the move-out inspection. Confirm availability with our intake team.

Our program is exclusively for individuals on fixed incomes, government assistance (such as SSI, SSDI, or VA pensions), or retirement checks. Residents must have reliable, independent monthly income from these sources.

Our shared homes are single-gender: women live with women, and men live with men.

No Smoking: our homes are completely smoke-free to maintain a clean, healthy, and comfortable environment for all residents.

Cameras are on site and continuously monitor the exteriors and common areas of every home. There are never cameras in bedrooms or bathrooms.

Our payment expectations are strict: rent must be paid on time and consistently each month, in accordance with your rental agreement. Review payment terms with our intake team before moving in.

Each house has two shared bedrooms and two shared bathrooms. Each bedroom has two twin beds divided by a privacy curtain, for four residents total. The kitchen, living room, and dining room are shared. Furnishings, utilities, Wi-Fi, and weekly professional common-area cleaning are included.

This is independent shared living, not a group home or assisted living program. Residents must be able to bathe, dress, cook, and self-administer medication without assistance. No personal care or medication management is provided.
